Key Issues

Financial companies involved in investment or asset management activities have the duty to act in the best long-term interests of their beneficiaries. The adoption of a responsible investment strategy, considering ESG aspects in investment decisions can be a critical factor to fulfil this fiduciary duty. At the same time, the integration of ESG aspects in the governance and control systems of the financial companies themselves can result in a better understanding and monitoring of ESG risks inherent to the company investment strategy and investee companies.

Company Performance

Due to the lack of reporting, A1 Investimentos Gestão de Recursos LTDA's performance in Research in Sustainability is weak.

A1 Investimentos does not disclose information on how the assessment of investee companies' ESG performance may be integrated in its investment decision making process. No information is provided on any ESG training made to analysts, research and risk assessment on the ESG performance of companies, consultation of stakeholders, engagement with companies on ESG issues.
