### Key issues

Companies seeking to attract international investors or to have them remain as shareholders are expected to maintain a sustainable and transparent relationship with these capital markets players. Investors and analysts should be able to access detailed and updated information as regards the company's financial performance, as well as regarding its medium to long-term strategy and related quantitative targets. Furthermore, it is also key for a company to report on its strategy and performance on Environmental, Social and Governance aspects. Such information should be made accessible through communication channels such as reports or dedicated pages on the website, while an investor relations team or department would be set up within the company.

### Company performance

Energias do Brasil achieved an advanced performance on its Investor Relations issues. The Company has allocated responsibilities over Investor Relations to its CEO and has established a dedicated IR team. EDP is transparent on most of the key elements on corporate governance and describes the general markets' context, such as the differentiation of risks according to their importance. Moreover, the financial report provides relevant KPIs, as the ESG report does. Energias do Brasil has adopted most of the recommended elements for an open and transparent communication with shareholders and has set up significant online tools to promote corporate events and ESG strategies. On the other hand, the company does not disclose the IR contact details in the website. On the other hand, the Company does not disclose the IR contact details in the website.
